

## Molaferm Mag 3.5

Suitable for feeding:

Our **Molaferm Mag** liquids are molasses blends containing either 1.2 or 3.5% **added Magnesium**. These liquids are specifically formulated for feeding to stock which are being grazed during times of magnesium challenge. In addition the readily available sugars in these products help **boost intakes** and the sweet taste of the molasses component helps mask the flavour of the added magnesium.

- ✓ **Palatable source of magnesium**
- ✓ **Best used in TMR rations**
- ✓ **Easy to handle**
- ✓ **Source of fermentable sugars**
