

UM FARM NEWSLETTER

MARCH 2017

Still can't get any Pot Ale Syrup? SUPER PRO to the rescue!

The availability of PAS continues to be tight this season so United Molasses GB has developed a new product that can help farmers replace this versatile liquid in their rations. **UM Super Pro 40** is a highly palatable liquid that combines an excellent source of non-urea ERDP with the quality sugars found in sugar cane molasses and like PAS it can fit perfectly into both dairy and beef rations. Like PAS, Super Pro 40 is a free flowing liquid so it is ideal to use in winter feeding with the added benefit of having higher typical nutritional values for both crude protein and sugars.

UM Super Pro 40 is a highly palatable liquid that combines an excellent source of non-urea ERDP with the quality sugars found in sugar cane molasses and can fit perfectly in both dairy and beef rations

Super Pro 40 is now available from both our Liverpool and Bristol terminals (**Full artic loads available**), for more information about this product please contact one of our sales team or visit us at www.unitedmolasses.com.

Typical Analysis (DM Basis) comparison between PAS and SUPER PRO 40

Product	DM (%)	Protein (%)	Sugars (%)
Pot Ale Syrup	43-44	25-35	2-3
UM Super Pro 40	58	40	20.5

Congratulations

Congratulations to **Mr A Smith** of Brook House Farm for **WINNING our top prize of a dram of Whisky** at last year's UK Dairy Day event in Telford.

We are looking forward to exhibiting again at **this year's event on 13th September 2017.**
